

I urge you to revoke the Sinclair Licenses if they continue NOT serving their communities with unbiased political information. Sinclair is suffocating journalism and democracy. The airwaves belong to the public. The public deserves to be exposed to all of the news, not just some of the news.

I have been told that Sinclair is planning on viewing a program called "Stolen Honor", a fictional account of Senator Kerry's wartime record, right before the presidential election. How does this program serve my interest? I want to see programs based on fact. I want both candidates to have equal time on MY airwaves. I think they should only be allowed to air this program if they also air a program like "Going Upriver".

On another note I listen to KPFK, broadcast in Los Angeles, CA. I have interference from a Spanish speaking classical station. This has been happening for a few years. Please respond to my concern regarding Sinclair and also the interference with my favorite radio station, KPFK.

Your attention is greatly appreciated.

Sincerely,

Linda Yannetty
